WavePay · Six monthly payments

Custom-build purchase agreement · 21 November 2026

Six monthly card payments, 0% interest: the first today, then five on the monthly anniversary date (the last calendar day in shorter months). The final amount adjusts for rounding; your agreed total and currency do not change. The checkout shows the price, schedule, authority and these terms before the first payment. Stripe processes payments and does not underwrite or lend the purchase price.

You must electronically sign the WavePay terms and contract using your full name before your first payment. Manufacturing can start once payment one has cleared, your contract is signed and the supplier order is approved. You can make additional payments or pay the full remaining balance at any time, without restrictions or early-payment fees. Extra payments reduce your remaining balance and future collections. Your boat remains in our possession until fully paid off. Release requires full cleared payment, a signed WavePay contract, completion and quality checks.

No — we do not offer change-of-mind cancellation or refunds. Once you sign your contract and make the first payment, you are committing to the purchase and custom build of your boat, paid through six monthly instalments. Your payments are not refundable simply because you change your mind or can no longer afford the monthly payments. Before starting WavePay, ensure you have sufficient funds available for every monthly payment shown for your selected boat. Nothing in these terms excludes, restricts or modifies any non-excludable right or remedy under the Australian Consumer Law or other applicable law. This includes any statutory cancellation or refund rights that apply if the arrangement legally qualifies as a lay-by; its legal classification depends on the actual arrangement, not its name. Any legally required refund or remedy, and rights under an existing accepted agreement, remain available.

If a scheduled payment fails, automatic charges pause. Contact us promptly to discuss the missed payment and agree a new payment date. A missed payment does not provide a change-of-mind cancellation or refund option. No interest, plan fee, late fee or automatic debt-recovery charge is added. We do not automatically take the entire remaining balance. Non-excludable consumer rights remain unaffected.

You may make additional payments or pay the full remaining balance at any time through your account, without restrictions or early-payment fees. Extra cleared payments reduce your balance and future collections; automatic payments stop when fully paid. No additional payment is taken without your authority. WavePay is offered as an instalment purchase of a custom-built boat, not a voluntary lay-by service or a loan. Ending an agreement or exercising any remedy must comply with applicable law; this clause does not permit unlawful forfeiture or retention of money.

Priority and existing orders. These specific monthly custom-build purchase terms apply to new agreements accepted under version wavepay-monthly-2026-11-21-custom-build and take precedence over inconsistent general payment or build provisions. They do not add a voluntary cancellation or refund option. Existing accepted orders, including earlier monthly and four-payment WavePay agreements, keep their original amounts, dates and accepted terms, subject always to non-excludable consumer rights. Remaining general policies apply only where consistent with these terms.

Electronic acceptance

Before payment one, enter your full name and sign the WavePay terms at checkout. Your accepted contract version, name, acceptance time and payment schedule are recorded with your order.
