AEROWAVE RUSH
SPEED TUBE RANGE

AEROWAVE

RESPONSIVE. FAST. ADAPTIVE.

MONOHULL WITH CATAMARAN PERFORMANCE

The twin under-hull speed tubes lift the Rush up and out of the water, so this monohull runs like a catamaran: **tight turning, handles the chop, slices through.** Built in 1500 GSM / 1.2 mm VALMEX® Heavy Plus.

1500 GSM · 1.2 MM
